## Quality Policy Statement

This Quality Assurance Manual and its Quality Procedures defines the organisation and management requirements of Arunfabs Ltd ('the Company'). The Company requires its quality management system to be maintained to the latest edition of BS EN ISO 9001:2000.

The Company's Quality objectives are:-

- To strive to build relationships with our customers that will enable us to work towards being their best supplier.
- Ensure that all customer requirements and standards are met as efficiently and economically as possible by all employees.
- All employees will work to company procedures and disciplines whilst complying with any statutory or regulatory requirements.
- To ensure that all employees have a "Quality" responsibility for all tasks and that they have the ability to identify quality problems and where necessary recommend constructive and effective solutions.
- The management team will have the responsibility to ensure that competent staff are available to fulfil the companies Quality objectives.
- Where necessary additional training will be encouraged to develop employee's skills to meet the Company's 'Continuous Improvement' objectives.
- All employees will recognise the need for 'Continuous Improvement' throughout the whole organisation and communicate to the Company's senior management any ideas/issues that will help the company achieve this.

Ian Gregory  
Managing Director
